- B. Bid document fee and Bid processing fee have been submitted through e-challan.
- C. Bid security of 2% of NIT cost has been submitted in the form of Bank Guarantee.
- D. PQ requirement for Credit Limit criterion: As per the eligibility criteria for prequalification of bidders regarding credit limit, each member of JV must meet at least 10% of the credit limit requirement (Rs. 19.264 Cr out of total requirement of Rs. 192.64 Cr for the bidder in this bid). As per bid document (PQ criteria), the credit limit requirement is as under:

"Credit limit (Fund based and non fund based) unutilized and available with the bidder shall not be less than 15% (Rs. 192.64 Cr in this bid) of the estimated cost of work.

Further, the certificate of credit limit to be issued by the Bank in FIN-2 for certification of **unutilized and available credit limit** should be of period within 3 months from date of opening of pre-qualification bid.

Bidder's credit limit as per the technical bid: The bidder has submitted certificate of Bank of India dated 21.05.2024 in favour of M/s HES (the other partner of JV bidder), which mentions as under:

"We hereby advise that if the contract for the work is awarded to the firm, we shall be able to provide working capital facilities to the extent of Rs. 20 Crore to meet your working capital requirements for executing the contract during the contract period through consortium banking arrangements subject to bank's extent guidelines on the same."

The above advice of Bank clearly reveals that the firm does not have unutilized and available credit limit on the date of issue of the same on 21.05.2024 (i.e. before opening of prequalification bid, as per PQ criterion). As the certificate is clear regarding non availability of credit limit of Rs. 19.264 Crore with the JV partner, no clarification from the Bank or the bidder is needed. So, the bidder does not meet this criterion.

The bidder does not meet the requirement of financial Criteria.

- E. In form FIN-1 of the lead partner M/s GVPR, total assets and total liabilities are shown as same and liabilities are not matching with CA's certificate. Further, the CA's certificate does not mention name of firm.
- F. In case of JV partner M/s HES, FIN-1 in prescribed format and CA certificate, as required in the bid document, are not found in the

technical bid. Further, CA certificate in support of financial stability (FIN-4), as required in bid document, is not found in the technical bid. GST certificate does not bear digital signature.

G. The bidder meets requirement of technical criteria

I. FIN-5 for History of non performing contract, submitted by M/s JWIL, is not as per the prescribed FIN-5 format.
